AUTHOR INDEX

VOLUME 30 NUMBERS 1-12

A

Aarsaether, Niels. See *Aarsland et al.* 1711

Aarsland, Asle, Niels Aarsaether, Jon Bremer, and **Rolf K. Berger.** Alkylthio acetic acids (3-thia fatty acids) as non-β-oxidizable fatty acid analogues: a new group of hypolipidemic drugs. III. Dissociation of cholesterol and triglyceride lowering effects and the induction of peroxisomal β-oxidation 1711

Acamovic, Fiona. See *Griffin et al.* 1243

Adams-Campbell, L. L. See *Sepehrnia et al.* 1349

Adlof, R. O. See *Emken et al.* 395

Adolphson, Janet L., and **John J. Albers.** Comparison of two commercial nephelometric methods for apoprotein A-I and apoprotein B with standardized apoprotein A-I and B radioimmunoassays 597

——. See *McNamara et al.* 747

Agnani, G. See *Fievet et al.* 1015

Alaupovic, Petar. See *Dashti, Williams, and Alaupovic* 1365

Albers, John J., Mark S. Lodge, and **Linda K. Curtiss.** Evaluation of a monoclonal antibody-based enzyme-linked immunosorbent assay as a candidate reference method for the measurement of apolipoprotein B-100 1445

——. See *Adolphson and Albers* 597

——. See *Applebaum-Bowden et al.* 1895

——. See *McNamara et al.* 747

——. See *Nishide, Tollefson, and Albers* 149

Albright, Ella. See *Kam et al.* 371

——. See *Mathur, Albright, and Field* 1385

Allan, Charles. See *Kondo, Allan, and Fidge* 939

Aly, Andreas. See *Axelson et al.* 1877

——. See *Axelson et al.* 1883

Andersen, Gregory J., William E. Connor, Julie D. Corliss, and **Don S. Lin.** Rapid modulation of the n-3 docosahexaenoic acid levels in the brain and retina of the newly hatched chick 433

Anderson, Linda J., Janet K. Boyles, and **M. Mahmood Hussain.** A rapid method for staining large chylomicrons 1819

Anderson, Robert E. See *Choe, Wiegand, and Anderson* 454

Ando, Seiichi. See *Hayashi et al.* 1421

Angel, Aubie. See *Julien, Despres, and Angel* 293

Angelin, Bo. See *Einarsson et al.* 739

——. See *Ståhlberg, Angelin, and Einarsson* 953

Applebaum-Bowden, D., P. McLean, A. Steinmetz, D. Fontana, C. Matthys, G. R. Warnick, M. Cheung, J. J. Albers, and **W. R. Hazzard.** Lipoprotein, apolipoprotein, and lipolytic enzyme changes following estrogen administration in postmenopausal women 1895

Armstrong, Victor W. See *Guo et al.* 23

Arora, Renu. See *Batta et al.* 1953

Asai, Tsuyoshi. See *Tokukmura et al.* 219

Asher, K. A. See *Lakshman et al.* 1545

Attlesey, M. G. See *Lakshman et al.* 1545

Aukema, H. M., and **B. J. Holub.** Effect of dietary supplementation with a fish oil concentrate on the alkenylacyl class of ethanolamine phospholipid in human platelets 59

Auwerx, Johan. See *Staels et al.* 1137

Aviram, Michael, Edwin L. Bierman, and **John F. Oram.** High density lipoprotein stimulates sterol translocation between intracellular and plasma membrane pools in human monocyte-derived macrophages 65

Avogaro, Angelo, and **Dennis M. Bier.** Contribution of 3-hydroxyisobutyrate to the measurement of 3-hydroxybutyrate in human plasma: comparison of enzymatic and gas-liquid chromatography-mass spectrometry assays in normal and in diabetic subjects 1811

Axelson, Magnus, Birgitta Mörk, Andreas Aly, Olof Wisén, and **Jan Sjövall.** Concentrations of cholestenoic acids in plasma from patients with liver disease 1877

——, **Birgitta Mörk, Andreas Aly, Goran Walldius,** and **Jan Sjövall.** Concentrations of cholestenoic acids in plasma from patients with reduced intestinal reabsorption of bile acids 1883

Azhar, Salman, David Stewart, and **Eve Reaven.** Utilization of cholesterol-rich lipoproteins by perfused rat adrenals 1799

——. See *Reaven, Spicher, and Azhar* 1551

B

Babiak, John. See *France et al.* 1997

Babin, Patrick J., and **Jean-Marie Vernier.** Plasma lipoproteins in fish 467

Bagdade, John D. See *Banerji et al.* 1907

Baldo, A. See *Cianflone et al.* 1727

Baldwin, Howard L. See *Verdery et al.* 1085

Banerji, B., P. V. Subbaiah, R. E. Gregg, and **John D. Bagdade.** Molecular species of phosphatidylcholine in abetalipoproteinemia: effect of lecithin:cholesterol acyltransferase and lysolecithin acyltransferase 1907

Barnes, Stephen, E. Stephen Buchina, R. Joan King, Todd McBurnett, and **Kenneth B. Taylor.** Bile acid sulfotransferase I from rat liver sulfates bile acids and 3-hydroxy steroids: purification, N-terminal amino acid sequence, and kinetic properties 529

Barnhart, Roger L., Steven J. Busch, and **Richard L. Jackson.** Concentration-dependent antioxidant activity of probucol in low density lipproteins in vitro: probucol degradation precedes lipoprotein oxidation 1703

Basheeruddin, Khaja. See *Mazzone, Basheeruddin, and Poulos* 1055

Bateman, Joyce. See *Keidar et al.* 1331

Batta, Ashok K., Gerald Salen, and **Sarah Shefer.** Characterization of sarcosylsarcoursodeoxycholic acid formed during the synthesis of sarcoursodeoxycholic acid 771

——, **Renu Arora, Gerald Salen, G. Stephen Tint, David Eskreis,** and **Seymour Katz.** Characterization of serum and urinary bile acids in patients with primary biliary cirrhosis by gas–liquid chromatography–mass spectrometry: effect of ursodeoxycholic acid treatment 1953
——. See *Karlaganis et al.* 317
——. See *Salen et al.* 1319
Bauchart, Dominique, Denys Durand, P. Michel Laplaud, Patricia Forgez, Sylvie Goulinet, and **M. John Chapman.** Plasma lipoproteins and apolipoproteins in the preruminant calf, *Bos* spp: density distribution, physicochemical properties, and the in vivo evaluation of the contribution of the liver to lipoprotein homeostasis 1499
Bazin, H. See *Fievet et al.* 1015
Beaty, T. H., P. O. Kwiterovich, A. Laville, and **B. Lewis.** Genetic analysis of total cholesterol and triglycerides in a pedigree of St. Thomas rabbits 387
Bell, Robert M. See *Van Veldhoven, Foglesong, and Bell* 611
Beltz, William F. See *Green et al.* 1405
Bendayan, M. See *Lévy et al.* 1197
Benfenati, Emilio, Daniela Macconi, Marina Noris, Giorgio Icardi, Laura Bettazzoli, Gianluca De Bellis, Marco Gavinelli, Serenella Rotondo, and **Guiseppe Remuzzi.** Development of a mass spectrometric method to quantitate platelet activating factor in mouse urine 1977
——, **Gianluca De Bellis, Su Chen, Laura Bettazzoli, Robert Fanelli, Maria Teresa Tacconi, Gunther Kirschner,** and **Gabriele Pege.** A fast atom bombardment–mass spectrometric method to quantitate lysophosphatidylserine in rat brain 1983
Benham, David F. See *Verdery et al.* 1085
Benthin, Lisbet. See *Einarsson et al.* 739
Berge, Rolf K. See *Aarsland et al.* 1711
Berglund, Lars, Marie F. Sharkey, Richard L. Elam, and **Joseph L. Witztum.** Effects of lovastatin therapy on guinea pig low density lipoprotein composition and metabolism 1591
Bernini, Franco. See *Via et al.* 1515
Bettazzoli, Laura. See *Benfenati et al.* 1977
——. See *Benfenati et al.* 1983
Bier, Dennis M. See *Avogaro and Bier* 1811
Bierman, Edwin L. See *Avinam, Bierman, and Oram* 65
Billardon, Claude. See *Guo et al.* 23
Bisgaier, Charles L., Mary V. Siebenkas, Charles B. Hesler, Theresa L. Swenson, Conrad B. Blum, Yves L. Marcel, Ross W. Milne, Robert M. Glickman, and **Alan R. Tall.** Effect of a neutralizing monoclonal antibody to cholesteryl ester transfer protein on the redistribution of apolipoproteins A-IV and E among human lipoproteins 1025
——. See *Cheung et al.* 1429
Björkhem, Ingemar, Kurt Einarsson, Pam Melone, and **Phillip Hylemon.** Mechanism of intestinal formation of deoxycholic acid from cholic acid in humans: evidence for a 3-oxo-Δ^4-steroid intermediate 1033
——. See *Einarsson, Reihnér, and Björkhem* 1477
Black, Dennis D., and **Nicholas O. Davidson.** Intestinal apolipoprotein synthesis and secretion in the suckling pig 207
Blanche, Patricia J. See *McCall et al.* 1579
Blum, Conrad B. See *Bisgaier et al.* 1025
Boquillon, Micheline. See *Lagrost et al.* 1525
Borchardt, Roy A. See *Davis et al.* 1185
Boyer, J. L. See *Karlaganis et al.* 317
Boyles, Janet K. See *Anderson, Boyles, and Hussain* 1819
Brady, Sandra M. See *Erickson et al.* 1763
Bradley, S. E. See *Karlaganis et al.* 317
Bremer, Jon. See *Aarsland et al.* 1711
Brenner, R. R. See *Rimoldi et al.* 857
Breslow, Jan L. See *Ito, Breslow, and Chait* 1781
Brisson, Jean-Robert. See *Ferrante et al.* 1601
Broekman, M. Johan, Ana M. Eiroa, and **Aaron J. Marcus.** Albumin redirects platelet eicosanoid metabolism toward 12(*S*)-hydroxyeicosatetraenoic acid 1925
Brouillette, Christie G. See *Cheung et al.* 1429
Brouwer, A. See *Kleinherenbrink-Stins et al.* 511
Brown-Booth, L. See *Emken et al.* 395
Bruckdorfer, K. Richard. See *Desai et al.* 831
Brunzell, John D. See *Marzetta, Foster, and Brunzell* 1307
Buchina, E. Stephen. See *Barnes et al.* 529
Bunker, C. H. See *Sepehrnia et al.* 1349
Busch, Steven J. See *Barnhart, Busch, and Jackson* 1703
Byrne, Robert E., and **Angelo M. Scanu.** Apolipoprotein B-100 of plasma low density lipoproteins undergoes proteolysis by contact activation factors when plasma is treated with dextran sulfate-500–$MgCl_2$ 109

C

Cabana, Veneracion G., Joan N. Siegel, and **Seymour M. Sabesin.** Effects of the acute phase response on the concentration and density distribution of plasma lipids and apolipoproteins 39
Calandra, Sebastiano. See *Tarugi et al.* 9
Camato, Rino, Yves L. Marcel, Ross W. Milne, Suzanne Lussier-Cacan, and **Philip K. Weech.** Protein polymorphism of a human plasma apolipoprotein D antigenic epitope 865
Campos, Hannia. See *McNamara et al.* 747
Careaga-Houck, Monica, and **Howard Sprecher.** Effect of a fish oil diet on the composition of rat neutrophil lipids and the molecular species of choline and ethanolamine glycerophospholipids 77
Carew, Thomas E. See *Young et al.* 225
Carey, K. Dee. See *Kushwaha et al.* 1147
Carretero, Oscar A. See *VanRollins, Frade, and Carretero* 275
Casserly, Edward W. See *Kudo et al.* 1097
Cenedella, Richard J., and **Charles R. Fleschner.** Cholesterol biosynthesis by the cornea. Comparison of rates of sterol synthesis with accumulation during early development 1079
Chait, A. See *Jialal and Chait* 1561
Chait, Brian T. See *Ito, Breslow, and Chait* 1781
Chan, Daniel C. F. See *Davis et al.* 1185
Chan, Lawrence. See *Semenkovich et al.* 423
——. See *Staels et al.* 1137
——. See *Luo, Li, and Chan* 1735
Chang, E. L. See *Lo, Montague, and Chang* 944
Chang, Frederic C. See *Iida et al.* 1267
Chapman, M. John. See *Bauchart et al.* 1499
——. See *Guo et al.* 23
Chen, Chih-Sheng. See *Shiao, Lin, and Chen* 287
Chen, San-Hwan. See *Semenkovich et al.* 423
Chen, Su. See *Benfenati et al.* 1983
Chen, Xunsheng. See *Zhang et al.* 141
Cheung, Marian C., Karen D. Lum, Christie G. Brouillette, and **Charles L. Bisgaier.** Characterization of apoA-I-containing lipoprotein subpopulations secreted by HepG2 cells 1429
——, and **Anitra C. Wolf.** In vitro transformation of apoA-I-containing lipoprotein subpopulations: role of lecithin:cholesterol acyltransferase and apoB-containing lipoproteins 499
——. See *Applebaum-Bowden et al.* 1895

Chino, Haruo, Yukari Kiyomoto, and **Koui Takahashi.** In vitro study of the action of adipokinetic hormone in locusts 571
Chisolm, Guy M. See *Morel and Chisolm* 1827
Choe, Hong-Gwan, Rex D. Wiegand, and **Robert E. Anderson.** Quantitative analysis of retinal glycerolipid molecular species acetylated by acetolysis 454
Choi, Eddie. See *Kim et al.* 663
Christie, William W. Silver ion chromatography using solid-phase extraction columns packed with a bonded-sulfonic acid phase 1471
Cianflone, K., H. Vu, M. Walsh, A. Baldo, and **A. Sniderman.** Metabolic response of acylation stimulating protein to an oral fat load 1727
Clegg, R. J. See *James et al.* 159
Cohen, Bertram I. See *Matoba et al.* 1005
Coleman, Rosalind A. See *Sansbury, Millington, and Coleman* 1251
Collins, Robert H. See *Stevens et al.* 673
Connelly, Phillip W. See *Maguire, Lee, and Connelly* 757
Connor, William E. See *Anderson et al.* 433
Cook, Keeley. See *Keidar et al.* 1331
Cooper, Robert B., Noa Noy, and **David Zakim.** Mechanism for binding of fatty acids to hepatocyte plasma membranes 1719
Corliss, Julie D. See *Anderson et al.* 433
Cornwell, David G. See *Zhang et al.* 141
Cornwell, Mary. See *Wood, Cornwell, and Williamson* 775
Cortner, Jean A. See *Matsushima et al.* 841
Coutlakis, P. J. See *Lakshman et al.* 1545
Craven, B. M. See *Srivastava and Craven* 893
Cryer, Dennis R. See *Matsushima et al.* 841
Cullis, P. R. See *Parmar et al.* 765
Curtiss, Linda K. See *Albers, Lodge, and Curtiss* 1445

D

Dashti, Nassrin, David L. Williams, and **Petar Alaupovic.** Effects of oleate and insulin on the production rates and cellular mRNA concentrations of apolipoproteins in HepG2 cells 1365
——. See *Sorci-Thomas et al.* 1397
d'Athis, P. See *Lagrost et al.* 701
Davidson, Nicholas O. See *Black and Davidson* 207
Davis, Roger A., Annamarie B. Prewett, Daniel C. F. Chan, James J. Thompson, Roy A. Borchardt, and **William R. Gallaher.** Intrahepatic assembly of very low density lipoproteins: immunologic characterization of apolipoprotein B in lipoproteins and hepatic membrane fractions and its intracellular distribution 1185
——. See *Junker and Davis* 1933
Davis, W. Bruce. See *Zhang et al.* 141
Dawson, Paul A., Lynne M. Lukaszewski, Peter F. Ells, Craig C. Malbon, and **David L. Williams.** Quantification and regulation of apolipoprotein E expression in rat Kupffer cells 403
Dayal, B. See *Salen et al.* 1319
De Bellis, Gianluca. See *Benfenati et al.* 1977
——. See *Benfenati et al.* 1983
Delaunay, T. See *Fievet et al.* 1015
Demant, T. See *James et al.* 159
Dennison, David K. See *Via et al.* 1515
Desai, Kalpna, K., Richard Bruckdorfer, Ronald A. Hutton, and **James S. Owen.** Binding of apoE-rich high density lipoprotein particles by saturable sites on human blood platelets inhibits agonist-induced platelet aggregation 831
Desgres, J. See *Lagrost et al.* 701
Despres, Jean-Pierre. See *Julien, Despres, and Angel* 293
DeVries, V. G. See *Largis et al.* 681
Dietschy, John M. See *Meddings and Dietschy* 1289
——. See *Spady and Dietschy* 559
Dodd, G. H. See *Russell, Evans, and Dodd* 877
Dory, Ladislav. Synthesis and secretion of apoE in thioglycolate-elicited mouse peritoneal macrophages: effect of cholesterol efflux 809
Duane, William C. See *Stone et al.* 1943
Dumaswala, R., K. D. R. Setchell, L. Zimmer-Nechemias, T. Iida, J. Goto, and **T. Nambara.** Identification of 3α,4β,7α-trihydroxy-5β-cholanoic acid in human bile: reflection of a new pathway in bile acid metabolism in humans 847
Durand, Denys. See *Bauchart et al.* 1499
Durieux, C. See *Fievet et al.* 1015
Duriez, P. See *James et al.* 159
Durrie, R., and **A. Rosenberg.** Anabolic sialosylation of gangliosides in situ in rat brain cortical slices 1259

E

Edwards, Peter A., and **Scott M. Grundy.** Hepatic Cholesterol and Lipoprotein Conference. Report of a Conference 1653
Egestad, Börje See *Karlaganis et al.* 317
——. See *Wahlén et al.* 1847
Ehnholm, Christian. See *Kuusi et al.* 1117
Eilenberg, Haviva, Ety Klinger, Fiorenza Przedecki, and **Ishaiahu Shechter.** Inactivation and activation of various membranal enzymes of the cholesterol biosynthetic pathway by digitonin 1127
Einarsson, Kurt, Lisbet Benthin, Staffan Ewerth, Goran Hellers, Dagny Ståhlberg, and **Bo Angelin.** Studies on acyl-coenzyme A:cholesterol acyltransferase activity in human liver microsomes 739
——, **Eva Reihnér,** and **Ingemar Björkhem.** On the saturation of the cholesterol 7α-hydroxylase in human liver microsomes 1477
——. See *Björkhem et al.* 1033
——. See *Ståhlberg, Angelin, and Einarsson* 953
Eiroa, Ana M. See *Broekman, Eiroa, and Marcus* 1925
Ekiel, Irena. See *Ferrante et al.* 1601
Elam, Richard L. See *Berglund et al.* 1591
Elias, Peter M. See *Grubauer et al.* 89
——. See *Gurbauer, Elias, and Feingold* 323
Ells, Peter F. See *Dawson et al.* 403
El-Saadani, M., H. Esterbauer, M. El-Sayed, M. Goher, A. Y. Nassar, and **G. Jurgens.** A spectrophotometric assay for lipid peroxides in serum lipoproteins using a commercially available reagent 627
El-Sayed, M. See *El-Saadani et al.* 627
Emken, E. A., R. O. Adlof, D. L. Hachey, C. Garza, M. R. Thomas, and **L. Brown-Booth.** Incorporation of deuterium-labeled fatty acids into human milk, plasma, and lipoprotein phospholipids and cholesteryl esters 395
Emmons, Gary T., William K. Wilson, and **George J. Schroepfer, Jr.** 24,25-Epoxysterols. Differentiation of 24R and 24S epimers by ^{13}C nuclear magnetic resonance spectroscopy 133
——. See *Kudo et al.* 1097

Erickson, Sandra K., Stefan Jaeckle, Steven R. Lear, Sandra M. Brady, and **Richard J. Havel.** Regulation of hepatic cholesterol and lipoprotein metabolism in ethinyl estradiol-treated rats 1763
——. See *Ozasa, Kempner, and Erickson* 1759
Eskesen, J. Bruce. See *France et al.* 1997
Eskreis, David See *Batta et al.* 1953
Esterbauer, H. See *El-Saadani et al.* 627
Evans, Andrew J., Murray W. Huff, and **Bernard M. Wolfe.** Accumulation of an apoE-poor subfraction of very low density lipoprotein in hypertriglyceridemic men 1691
Evans, C. Dean See *Stone et al.* 1681
——. See *Stone et al.* 1943
Evans, P. See *Russell, Evans, and Dodd* 877
Ewerth, Staffan See *Einarsson et al.* 739

F

Fadden, Robert J. See *Stone et al.* 1681
Fanelli, Roberto. See *Benfenati et al.* 1983
Fanslow, Annette E. See *Via et al.* 1515
Farriaux, J. P. See *James et al.* 159
Feingold, Kenneth R. See *Grubauer et al.* 89
——. See *Grubauer, Elias, and Feingold* 323
——. See *Grunfeld et al.* 579
Ferrante, Giulio, Jean-Robert Brisson, Girishchandra B. Patel, Irena Ekiel, and **G. Dennis Sprott.** Structures of minor ether lipids isolated from the aceticlastic methanogen, *Methanothrix concilii* GP6 1601
Ferrari, Stefano. See *Tarugi et al.* 9
Ferrell, R. E. See *Sepehrnia et al.* 1349
Fidge, Noel. See *Kondo, Allan, and Fidge* 939
Field, F. Jeffrey. See *Kam et al.* 371
——. See *Mathur, Albright, and Field* 1385
Fielding, C. J. See *Fielding, Jackson, and Fielding* 1211
Fielding, P. E., E. M. Jackson, and **C. J. Fielding.** Chronic dietary fat and cholesterol inhibit the normal postprandial stimulation of plasma cholesterol metabolism 1211
Fievet, C., C. Durieux, R. Milne, T. Delaunay, G. Agnani, H. Bazin, Y. Marcel, and **J. C. Fruchart.** Rat monoclonal antibodies to human apolipoprotein B: advantages and applications 1015
Figard, Paul H. See *Gordon, Figard, and Spector* 731
Fischer, Robert T., Simon H. Stam, Paul R. Johnson, Soo S. Ko, Ronald L. Magolda, James L. Gaylor, and **James M. Trzaskos.** Mechanistic studies of lanosterol 14α-methyl demethylase: substrate requirements for the component reactions catalyzed by a single cytochrome P-450 isozyme 1621
Fleschner, Charles R. See *Cenedella and Fleschner* 1079
Fless, Gunther M., Margaret L. Snyder, and **Angelo M. Scanu.** Enzyme-linked immunoassay for Lp[a] 651
Fogelman, Alan M. See *Frank and Fogelman* 967
Foglesong, Robert J. See *Van Veldhoven, Foglesong, and Bell* 611
Fontana, D. See *Applebaum-Bowden et al.* 1895
Forgez, Patricia. See *Bauchart et al.* 1499
Forte, Trudy M., Mark R. McCall, Barbara B. Knowles, and **Virgie G. Shore.** Isolation and characterization of lipoproteins produced by human hepatoma-derived cell lines other than HepG2 817
——. See *McCall et al.* 1579
——. See *Salen et al.* 1319
Foster, David M. See *Kushwaha et al.* 1147

SUBJECT INDEX

VOLUME 30 NUMBERS 1–12

A

Abetalipoproteinemia: Molecular species of phosphatidylcholine in 1907
ABL: *see* **Abetalipoproteinemia**
ACAT: *see* **Acyl-CoA:cholesterol acyltransferase**
Acetolysis: Of retinal glycerolipid molecular species 454
Acetyl-LDL receptor: Activity, induction of phorbol esters in human THP-1 cells 1515
Acetylcholinesterase: Synaptosomal, activity and thermotropic properties 1173
Acetylhydrolase: PAF, mediator of hydrolysis of PC during oxidation of LDL 305
N-Acetyl-mannosamine: Incorporation into gangliosides in rat brain cortical slices 1259
Acute phase response: Effect of on plasma lipids and apolipoproteins 39
Acyl coenzyme A:cholesterol acyltransferase
Assay of activity in human liver microsomes 739
Hepatic activity in rats, correlation with bile salt hydrophobicity index 1161
Hepatic, regulation in ethinyl estradiol-treated rats 1763
Hepatic, regulation in the rat 1681
Inhibition in CaCo-2 cells, effect of on triglyceride accumulation 371
Inhibition of cholesterol esterification by 681
Reduction of activity of by fibric acid derivatives 953
Acyl coenzyme A:diacylglycerol acyltransferase: Rat liver, functional size of by radiation inactivation 1759
Acyl groups, short chain: In choline phospholipids from bovine brain 219
Acyl platelet-activation factor: In bovine brain 219
Acylamide 58-035: Inhibition of ACAT in CaCo-2 cells 371
Acylation stimulating protein
Metabolic response of, to an oral fat load 1727
Plasma levels of, in response to oral fat or oral glucose loads 1727
Adipocyte
Human, effect of cachectin/TNF on LPL of 1917
Stimulation of glucose incorporation by palmitic acid 1299
Adipokinetic hormone: In locusts, in vitro study of action of 571
Adipose tissue
Bovine, hormone-sensitive lipase activity 997
Localization of RBP mRNA in perinephric and epididymal fat 171
Scanning electron microscopy of fat cells 293
Adrenal cortical cells: Concentration of lipoproteins in surface-associated microvillar channels 1551
Adrenals: Rat, utilization of cholesterol-rich lipoproteins by 1799
African green monkeys
Effect of fish oil on hepatic secretion of cholesteryl esters and apoB 1535
Metabolism of hepatic VLDL and plasma LDL 357
Aging: Interaction with dietary fat in regulation of LDL transport in the hamster 559
Albumin
Effect of on eicosanoid metabolism in platelets in vitro 1925
Effect on apoB mRNA in HepG2 cells 1065
Alcoholic liver cirrhosis: Cholestenoic acids in plasma 1877
Alkenylacyl ethanolamine phospholipids: In human platelets, effect of dietary fish oil on 59
Amino acid sequence: N-terminal, of bile acid sulfotransferase I 529
Aminophospholipid: Molecular species, analysis by HPLC 1963
Antibodies, monoclonal: To human apo[a] 23
Antioxidant properties: Of probucol in LDL in vitro 1703
Antioxidant treatment: Effect on lipoprotein oxidation in diabetic rats 1827
Apolipoprotein(s)
Changes following estrogen administration in postmenopausal women 1895
Concentration and density distribution, effect of APR on 39
Evolution and function 1735
Human, genetic studies on 1349
In cystic fibrosis 1197
In HDL fractions from rat liver perfusates 979
In HDL, effect of on transfer of cholesteryl esters into HDL 1491
In lipoproteins from human hepatoma-derived cell lines 817
Plasma, in the preruminant calf 1499
Resolution by SDS-glycerol polyacrylamide slab gel electrophoresis 757
Apolipoprotein [a]
From human Lp[a], characterization of five mouse monoclonal antibodies 23
Isoforms, in baboons, hereditary and dietary effects on 549
Mabs, use of in a bi-site ELISA for Lp[a] 1437
Apolipoprotein A-I
Gene, effect of dietary fat on tissue-specific expression of 1397
In lipoprotein subpopulations secreted by HepG2 cells 1429
In vivo transformation of lipoprotein subfractions containing apoA-I 499
Intestinal, synthesis and secretion in the suckling pig 207
Levels in hypertriglyceridemic plasma samples 597
mRNA, dog, structure and expression of 1735
mRNA, in rat liver and intestine, influence of development, estrogens, and food intake 1137
Nephelometric assay of, comparison with RIA 597
Quantitation in whole serum or plasma by nonreducing gel electrophoresis 1997
Synthesis in skeletal muscle of the developing chick 9
Apolipoprotein A-II: mRNA, in rat liver and intestine, influence of development, estrogens, and food intake 1137
Apolipoprotein A-IV

And triglycerides in human sera, correlation between 701
Distribution among human lipoproteins, effect of a neutralizing Mab to CETP 1025
ELISA quantitation in human plasma 939
Enzyme immunoassay of, in human serum 701
Immunoassay of 1525
In normal human serum HDL 1525
Apolipoprotein B
Allelic haplotypes in swine 199
Hepatic secretion in African green monkeys 1535
Human, rat monoclonal antibodies to 1015
Intracellular localization in cultured hepatocytes 1185
LDL, catabolism in CTX 633
Levels in hypertriglyceridemic plasma samples 597
Mabs, use of in a bi-site ELISA for Lp[a] 1437
MB19 polymorphism 443
Measurement of synthesis in the perfused rat liver using stable isotopes 841
Metabolism in homozygous FH 159
Nephelometric assay of, comparison with RIA 597
Oxidative modification of, immunochemical marker for 885
Secretion by HepG2 cells, regulation of 1065
Study of structure by electron microscopy 415
Truncated forms in a kindred with compound heterozygous hypobetalipoproteinemia 1773
Apolipoprotein B-48: Quantitation by gel scanning or radio-iodination 1639
Apolipoprotein B-49: Intestinal, synthesis and secretion in the suckling pig 207
Apolipoprotein B-100:
Comparison of methods for measurement of 1445
ELISA as a candidate reference method for measurement of 1445
LDL, epitope expression of, effect of diet 1331
LDL, metabolic behavior in African green monkeys 357
LDL, proteolysis of, by contact inactivation factors 109
Metabolism in subjects with normolipidemia and FCH 1307
Quantitation by gel scanning or radio-iodination 1639
Apolipoprotein B-rich lipoproteins: Accumulation in HepG2 cells 1365
Apolipoprotein C-I: mRNA, dog, structure and expression of 1735
Apolipoprotein C-II: Polymorphism in Nigerian blacks 1349
Apolipoprotein C-III: Lack of carbohydrate residues on apoC-III_0 1781
Apolipoprotein D: Human, polymorphism of 865
Apolipoprotein E
Gene, macrophage, regulation of expression by cholesterol 1055
HDL rich in, binding by saturable sites on platelets 831
In subfractions of VLDL from hypertriglyceridemic subjects 1691
Monoclonal antibody, inhibition of apoB-mediated receptor binding by 587
mRNA, dog, structure and expression of 1735
mRNA, in rat liver and intestine, influence of development, estrogens, and food intake 1137
mRNA, regulation of synthesis by diet and hormones 663
Quantification and regulation of expression in rat Kupffer cells 403
Regulation of synthesis by diet and hormones 663
Synthesis and secretion in macrophages 809
Apolipoprotein structure: Study of by ^{252}Cf plasma desorption mass spectrometry 1781
APR: *see* **Acute phase response**
Arachidonic acid
Conversion to 12-HETE by platelets, effect of albumin 1925
Formation of eicosanoids from, by brain microvessel endothelium 1747
Incorporation into cellular lipids of cholesterol-rich macrophages 1385
Release in cholesterol-enriched arterial smooth muscle cells 1219
ARAT: *see* **Acyl-CoA:retinol acyltransferase**
Archaebacteria, thermoacidophilic: Purification of GDNT from 944
ASP: *see* **Acylation stimulating protein**
Atherosclerosis: Induced by dietary cholesterol, resistance to in a colony of rabbits 263

B

β-carotene: Absorption, storage, and distribution in rats 1545
Baboons
Fed a high cholesterol, high saturated fat diet, metabolism of HDL in 1147
Hereditary and dietary effects on apo[a] isoforms and Lp[a] 549
Bean flour, dietary
Effect of on biliary secretion in the rat 1041
Effect of on hepatic cholesterol metabolism in the rat 1041
Bezafibrate: Effect of on cholesterol metabolism in rat liver microsomes 953
Bile
Human, 3α,4β,7α-trihydroxy-5β-cholanoic acid in 847
Of *Raja erinacea*, bile alcohol sulfate in 317
Rat, identification of bile alcohols in 1889
Supersaturated, model, cholesterol nucleation in 491
Bile acid 3-O-glucuronides: Defective biliary secretion of in rats with hyperbilirubinemia 1835
Bile acid analogues: Synthesis and metabolism in the hamster 1005
Bile acid sulfotransferase I
Purification, N-terminal amino acid sequence, and kinetic properties 529
Sulfation of bile acids and 3-hydroxy steroids 529
Bile acid synthesis: Regulation of 1161
Bile acid transport: In the rat 1835
Bile acid(s)
3β-Hydroxy-5-en-bile acids in liver diseases 1233
6-Methyl, synthesis and metabolism in the hamster 1005
(22R)-3α,7α,12α,22- and (23R)-3α,7α,12α,23-Tetrahydroxy-5β-cholestanoic acids in Zellweger's syndrome 541
Analysis by thermospray ionization liquid chromatography-mass spectrometry 1459
C-4 hydroxylated, chemical synthesis of 847
Characterization by GLC-MS 1953
Cholestenoic acids in plasma from patients with reduced reabsorption of 1883
Glucuronides 1835
In hamsters, effect of monosulfate esters of taurochenodeoxycholate on 673
In phenobarbital-treated hamsters 711
Ketonic, in urine of infants during the neonatal period 1847
Metabolism in humans, a new pathway 847
Plasma concentration in liver disease 1877
Plasma, determination by capillary GLC-electron capture negative chemical ionization mass fragmentography 1647

Serum and urinary, in primary biliary cirrhosis, effect of UDCA treatment 1953
Synthesis by cultured rat hepatocytes 1933
Synthesis of hyocholic and muricholic acid stereoisomers 1267
Bile acids, methyl substituted: Synthesis and metabolism in the hamster 1005
Bile alcohol(s)
Glucuronides, urinary excretion in primary biliary cirrhosis 1673
In rat bile 1889
Bile alcohol sulfate: In the bile of the small skate, *Raja erinacea* 317
Bile flow: In hamsters, effect of monosulfate esters of TCDC on 673
Bile, model: Cholesterol solubilization in, effect of cholesterol nucleation on 51
Bile salt(s)
3-Diazirine derivatives of, for photoaffinity labeling 1281
Hydrophilic-hydrophobic balance in mixed solutions of 719
Monosulfate esters of TCDC in hamsters 673
Bile salt-binding proteins: Photoaffinity labeling of, in intact tissues and cells 1281
Bile salt composition: After feeding bile salts to rats 1161
Bile salt hydrophobicity index: Correlation with activities of HMG-CoA reductase and cholesterol 7α-hydroxylase 1161
Bile sequestrant therapy: Effect on apoB-containing lipoproteins 225
Biliary lipid: Secretion in the rat, effect of bean intake on 1041
Binding
Of acetyl-LDL to THP-1 cells 1515
Of apoE-rich HDL to human platelets 831
Of HDL to receptor on cholesterol-loaded macrophages 65
Binding sites: Antiestrogen, interaction of sterols with 238
Brain cortical slices: Anabolic sialosylation of gangliosides in 1259
Brain microvessel endothelium: Eicosapentaenoic acid metabolism in 1747
Brain synaptosomal phospholipids: In the piglet, effect of dietary long-chain polyunsaturated fatty acids 1173
Brain, rat: Lysophosphatidylserine in 1983

C

Cachectin: Effect of on human adipose tissue LPL mRNA levels, synthesis, and activity 1917
Cachexia: Relationship to human adipose tissue LPL activity 1917
CaCo-2 cells: Effect of inhibition of ACAT on intracellular triglyceride 371
Calcium, intracellular: Role of in stimulation of glucose incorporation in the adipocyte 1299
Carbohydrate: On apoC-III isoproteins 1781
Carbohydrate diet
Effect of on interaction of LDL with human fibroblasts 1331
Effect of on lipoprotein lipids 1331
Modulation of epitope expression of LDL apoB-100 1331
Catalytic site: Of HMG-CoA reductase 97
Cebus monkey: LDL heterogeneity in 641
Cell culture
Metabolism of 25-hydroxycholesterol in fibroblasts 899
Of fat cells from mature fat tissue fragments 1987
Cellular localization: Of RBP mRNA in the adult rat kidney 171
Cerebrotendinous xanthomatosis
Cholesterol synthesis in 633
Effect of chenodeoxycholic acid on lipoprotein metabolism in 633
FCR of LDL apoB 633
CETP: *see* **Cholesteryl ester transfer protein**
Chemical composition
Of cebus monkey LDL 641
Of lipoproteins in cystic fibrosis 1197
Of VHDL from *Triatoma infestans* 857
Chenodeoxycholic acid
Chemical synthesis of 3,6,7-trihydroxy-5β-cholanoic stereoisomers from 1267
Effect of on metabolism of lipoproteins in CTX 633
Chick, developing
Plasma lipoproteins in 9
Skeletal muscle apoA-I synthesis in 9
Chinese hamster ovary cells: Effect of 5β-cholest-8-ene-3β,15α-diol on HMG-CoA reductase activity in 919
27-Nor-5β-cholestane-3α,7α,12α,24,25-pentol: Glucuronide, urinary excretion of 1673
5β-Cholest-8-ene-3β,15α-diol: Chemical synthesis of 919
Cholestenoic acids
Importance of liver in metabolism of 1877, 1883
In plasma from patients with liver disease 1877
In plasma from patients with reduced reabsorption of bile acids 1883
Cholesterol
Changes following estrogen administration in postmenopausal women 1895
Crystal nucleation in supersaturated model bile 491
Hepatic, regulation in ethinyl estradiol-treated rats 1763
Hepatic, regulation of content of in the rat 1681
In HDL subfractions, measurement by gradient gel analysis 1085
Macrophage, intracellular, translocation to plasma membrane 65
Regional distribution in the cornea 1079
Regulation of macrophage apoE gene expression by 1055
Serum, in diabetic rats, effect of insulin or antioxidant treatment 1827
Solubility in model bile, effect of cholesterol nucleation on 51
Cholesterol 7α-hydroxylase
Hepatic activity in rats, correlation with bile salt hydrophobicity index 1161
In human liver microsomes, substrate saturation 1477
Cholesterol absorption
In sitosterolemia with xanthomatosis 1319
Inhibition by CL 277,082 681
Cholesterol biosynthesis
Demethylation of lanosterol 1621
In the cornea 1079
Inactivation and activation of membranal enzymes by digitonin 1127
Cholesterol, dietary
And estrogen administration in postmenopausal women, changes in lipoproteins, LPL, and HTGL 1895
Effect on serum apoA-I in the Mongolian gerbil 1997
Cholesterol efflux: Effect of on synthesis and secretion of apoE in macrophages 809
Cholesterol esterification
ACAT-catalyzed, inhibition of by CL 277,082 681
Inhibition by oxidatively modified LDL 1561
Cholesterol-fed rabbits: Ultrastructure of intima from aortas of 967

Cholesterol metabolism
And eicosanoid biosynthesis 1219
Hepatic, in the rat, effect of bean intake on 1041
In rat liver microsomes, effect of fibric acid derivatives 953
Cholesterol nucleation: In model bile 51
Cholesterol, plasma: Genetic analysis on a pedigree of rabbits 387
Cholesterol-rich diet: In baboons, effect of on metabolism of large HDL 1147
Cholesterol-rich lipoproteins: Utilization by rat adrenals 1799
Cholesterol saturation index: In model bile 491
Cholesterol synthesis
In CTX 633
In sitosterolemia with xanthomatosis 1319
In the whole lens 1411
In tissues of hamsters of various ages 559
Inhibition of in lens 1411
Cholesterol transfer: From mitochondrial membranes and cells to lipoproteins 1357
Cholesterol turnover: In sitosterolemia with xanthomatosis 1319
Cholesteryl ester(s)
Accretion in arterial smooth muscle cells, effect on eicosanoid biosynthesis 1219
Crystal structure of cholesteryl palmitelaidate 893
Effect of fish oil on hepatic secretion in African green monkeys 1535
Hepatic, regulation of content of, in the rat 1681
Hydrolysis, in a cell culture model of smooth muscle foam cells 189
LDL, exchange of for VLDL triglyceride 347
Of piglet plasma and lymph LDL and HDL 207
Radiolabeled, in vitro incorporation into LDL and HDL 1663
Slower rate of transfer than cholesteryl esters by CETP 1405
Transfer between lipoproteins 1405
Transfer into HDL by CETP 1491
Cholesteryl ester hydrolase: Hepatic, regulation in the rat 1681
Cholesteryl ester transfer protein
In plasma 1405
Mab to, effect of on distribution of apoA-IV and apoE among human lipoproteins 1025
Transfer of cholesteryl ester into HDL 1491
Cholesteryl palmitelaidate: Crystal structure of form II 893
Cholesteryl synthesis: In cultured cells, effect of vitamin D_3 derivatives 379
Cholestyramine treatment
Effect of on 7α-hydroxylation of cholesterol in liver microsomes from gallstone patients 1477
Effect of on plasma levels of cholestenoic acids 1883
Cholic acid: Conversion to deoxycholic acid in humans, mechanism of 1033
Chromatography, high performance liquid
Of molecular species of aminophospholipids 1963
Of neutral glycosphingolipids 121
Reversed phase, of isomers of oxygenated triterpenoids 287
Separation of derivatized glycosphingolipids 616
Chromatography, high performance thin-layer: Of synaptic plasma membrane lipids 775
Chromatography, silver ion
Of fatty acid methyl esters 1471
Using solid-phase extraction columns packed with a bonded-sulfonic acid phase 1471
Chromatography, thin-layer: Two-step, one-dimensional of phospholipids 761
Chylomicron remnants: Electron microscopy of 1819
Chylomicrons
Electron microscopy of 1819
Large, rapid method for staining 1819
Ciprofibrate: Effect of on metabolism of cholesterol in rat liver microsomes 953
Cirrhosis, primary biliary: Urinary excretion of bile alcohol glucuronides 1673
CL 277,082: An inhibitor of ACAT-catalyzed cholesterol absorption and esterification 681
Clofibrate: Effect of on metabolism of cholesterol in rat liver microsomes 953
CMP-N-acetylneuraminic acid:lactosylceramide sialyltransferase: In HL-60 leukemia cells, effect of inducers of differentiation on 181
Coenzyme A thioesters: Interaction with HMG-CoA reductase 97
Colestipol: Changes in compositon and metabolism of LDL induced by 225
Conformation: Of apoB 415
Conversion factor, HDL: Interaction with recombinant discoidal complexes 335
Cornea: Cholesterol biosynthesis in 1079
Critical micellar concentration: Of TCDC and its monosulfate esters 673
Crystal structure: Of form II of cholesteryl palmitelaidate 893
CTX: *See* **Cerebrotendinous xanthomatosis**
Cu^{2+} oxidation: Of LDL 1703
Cyclooxygenase
Action on arachidonic acid in the presence of albumin 1925
Products of, in cholesterol-enriched arterial smooth muscle cells 1219
Cystic fibrosis
Diagnosis of EFA deficiency in 1483
Fatty acid composition of red cell phospholipids 1483
Relationship of hepatic lipase activity to EFA deficiency 1197
Relationship of hepatic lipase activity to lipoprotein abnormalities 1197
Cytochrome P-450: Catalysis of lanosterol 14α-methyl demethylation 1621

D

Demethylation: Of 14α-methyl of lanosterol 1621
Deoxycholate, 7α-hydroxylase: In the hamster, specificity and effect of phenobarbital on 711
Deoxycholic acid: Mechanism of formation from cholic acid in humans 1033
Detoxification: Of lithocholic acid 907
Deuterium-labeled fatty acids: Incorporation into human milk, plasma, and lipoprotein lipids 395
DGAT: *see* **Acyl coenzyme A:diacylglycerol acyltransferase**
Diabetes
3-OHB and 3-OHIB in plasma 1811
Lipoprotein oxidation in 1827
Diacylglycerol
In lipophorin, effect of adipokinetic hormone 571
Liver, effect of a lipogenic diet on 691
3-Diazirine derivatives of bile salts: For photoaffinity labeling 1281

Dicarboxylic acids: Unsaturated, medium chain in human urine 1611
Dietary cholesterol
And estrogen administration in postmenopausal women, changes in lipoproteins, LPL, and HTGL 1895
And fat, chronic, inhibition of postprandial stimulation of plasma cholesterol metabolism 1211
And saturated fat, effect of on LDL metabolism in hamsters 559
Effect of on 7α-hydroxylation of cholesterol in liver microsomes from gallbladder patients 1477
Rabbits resistant to 263
Dietary fat
And cholesterol, chronic, inhibition of postprandial stimulation of plasma cholesterol metabolism 1211
Effect of on tissue-specific expression of the apoA-I gene 1397
Effect of on egg yolk fatty acid composition 433
Interaction with aging in regulation of LDL transport in the hamster 559
Dietary fatty acids: Contribution to milk cholesteryl esters and phospholipids in lactating mothers 395
Dietary saturated fat: And cholesterol, effect of on LDL metabolism in hamsters 559
Differentiation: Inducers of, effect on protein kinase C and sialyltransferase activity in HL-60 leukemia cells 181
Digitonin: Effect of on membranal enzymes of the cholesterol biosynthetic pathway 1127
Dihydrosphingosine-1-phosphate: Enzymatic synthesis of 611
3β,12α-Dihydroxy-5-cholenoic acid: Occurrence with 3β-hydroxy-5-cholenoic acid in liver diseases 1233
(25R)-3β,26-Dihydroxy-5α-cholest-8(14)-en-15-one: Chemical synthesis, structure, and biological activity of 247
3α,6α-Dihydroxy-6β-methyl-5β-cholanoic acid: Synthesis and metabolism in the hamster 1005
3α,6β-Dihydroxy-6α-methyl-5β-cholanoic acid: Synthesis and metabolism in the hamster 1005
Discoidal complexes: Of apoA-I, PC, and cholesterol, interaction with HDL conversion factor 335
DMPC: *see* **Dimyristoylphosphatidylcholine**
Docosahexaenoate methyl esters: Synthesis of epoxide and vicinal diol regioisomers from 275
Docosahexaenoic acid (n-3): Modulation of levels of in the brain and retina of the newly hatched chick 433
DPPC: *see* **Dipalmitoylphosphatidylcholine**
Dyslipoproteinemia: PMRS of plasma from patients with 521

E

EFA: *see* **Essential fatty acid**
Eicosanoid metabolism
In cholesterol-enriched arterial smooth muscle cells 1219
In platelets in vitro, effect of albumin on 1925
Eicosanoids
Formed by human umbilical vein endothelial cell cultures 1747
Formed by microvessel endothelial cultures 1747
Eicosapentaenoic acid: Formation of eicosanoids from, by brain microvessel endothelium 1747
5,8,11,14,17-Eicosapentaenoic acid: Dietary, incorporation into rat neutrophil lipids 77
Electron microscopy
Of apoA-I-containing lipoproteins secreted by HepG2 cells 1429
Of cebus monkey LDL 641
Of chylomicrons 1819
Of HDL fractions from rat liver perfusates 979
Of hepatocytes containing crystalline tripalmitin 1375
Of HepG2 cell lipoproteins 1579
Of HepG2 cells 1065
Of intima from aortas of WHHL and cholesterol-fed rabbits 967
Of LDL and lipid-extracted LDL 415
Of lipophorin particles 571
Of lipoproteins from human hepatoma cells 817
Of microvillar channels in zona fasciculata cells 1551
Of rat hepatocytes, after gemfibrozil treatment 1859
Of very small and mature fat cells in human obesity 293
Electrophoresis: SDS-glycerol polyacrylamide slab gel, resolution of apolipoproteins by 757
Electrophoresis, gradient gel
Of HDL 1085
Screening of Lp[a] in plasma 747
Electrophoresis, nonreducing gel: Quantitation of mammalian apoA-I in whole serum or plasma 1997
ELISA, competitive: Of apoA-IV in human plasma 939
ELISA: *see* **Enzyme-linked immunosorbent assay**
Endothelial cells: Metabolism of oxidatively modified LDL and acetylated LDL by 1561
Enzyme-linked immunosorbent assay
Candidate reference method for measurement of apoB-100 1445
For human Lp[a] 651
For human Lp[a] quantitation using monoclonal antibodies 1437
Of apoA-IV in human plasma 939
EPA: *see* **Eicosapentaenoic acid**
Epidermal lipids: Biosynthesis of 323
Epidermal permeability barrier: Lipid type and content 89
Epithelial cells, renal tubular: Metabolite of 12-HETE produced by 731
Epitope expression: Of LDL apoB-100, modulation by a high carbohydrate fat-free diet 1331
Epitopes: On apoB-100, location of 1015
Epoxides: Synthesis from docosahexaenoate methyl esters 275
Epoxysterols: Differentiation of 24R and 24S epimers by ^{13}C NMR spectroscopy 133
Erythrocytes: Molecular species of phosphatidylcholine and phosphatidylethanolamine in ABL 1907
Essential fatty acid
Deficiency, diagnosis in cystic fibrosis 1483
Deficiency in cystic fibrosis patients 1197
Estrogen
Administration in postmenopausal women, changes in lipoproteins and apolipoproteins 1895
Influence of on apoA-I, A-II, and E mRNA in rat liver and intestine 1137
Ether lipids: From the aceticlastic methanogen *Methanothrix concilii* GP6 1601
Ethinyl estradiol: Effect of in regulation of hepatic cholesterol and lipoprotein metabolism 1763
Evolution: Of apolipoproteins 1735
Extrahepatic cholestasis: Cholestenoic acids in plasma 1877

F

FAB: *see* **Fast ion bombardment**
Familial hypercholesterolemia: ApoB metabolism in 159
Fast atom bombardment: MS, quantitation of lysophosphatidylserine in rat brain by 1983

Fat cells
Distribution of diameters in lean and obese human subjects 293
From fat tissue fragments, culture method for 1987
Scanning electron microscopy of 293
Fatty acid composition
Of brain synaptosomal phospholipids in the piglet 1173
Of egg yolk, effect of hen's diet on 433
Of piglet plasma and lymph LDL and HDL cholesteryl esters 207
Of plasma nonesterified fatty acids 451
Of polymorphonuclear leukocyte glycerophospholipids 77
Of rat olfactory mucosa lipids 877
Of red cell phospholipids in cystic fibrosis 1483
Fatty acid methyl esters: Silver ion chromatography of 1471
Fatty acids
Deuterium-labeled, incorporation into human milk, plasma, and lipoprotein lipids 395
Mechanism for binding to hepatocyte plasma membrane 1719
Sulfur-substituted, as hypolipidemic drugs 1711
Fatty acids, dietary: Contribution to milk cholesteryl esters and phospholipids in lactating mothers 395
Fatty acids, n-3
Content in neural tissue of the newly hatched chick 433
Effect on plasma lipid and lipoprotein metabolism 785
Enrichment in alkenylacyl ethanolamine phospholipids 59
Fatty acids, nonesterified: Plasma, one-step rapid extractive methylation 451
Fatty acids, plasma: Direct transesterification for diagnosis of EFA deficiency in cystic fibrosis 1483
Fatty acids, unsaturated: Oxazoline derivatives, structure determination by mass spectrometry 127
FFA: *see* **Free fatty acids**
FH: *see* **Familial hypercholesterolemia**
Fibric acid derivatives: Effect of on metabolism of cholesterol in rat liver microsomes 953
Fibroblasts
Chicken embryo, lipoprotein receptors on 1421
Chicken, sterol-regulated surface protein on 1421
Interaction with LDL, effect of a high carbohydrate, fat-free diet 1331
Mouse L929, metabolism of 25-hydroxycholesterol in 899
Fish: Plasma lipoproteins, a review 467
Fish oil
Concentrate, dietary, effect on ethanolamine phospholipids in human platelets 59
Dietary, effect on composition of rat neutrophil lipids 77
Effect on hepatic cholesteryl ester and apoB secretion in African green monkeys 1535
Effect on plasma lipid and lipoprotein metabolism in humans 785
Foam cells, smooth muscle: Cell culture model 189
Food intake: Influence of on apoA-I, A-II, and E mRNA in rat liver and intestine 1137
Fractional catabolic rate
Of apoB-containing lipoproteins, in FH 159
Of guinea pig LDL, effect of lovastatin treatment 1591
Of LDL apoB in CTX 633
Free fatty acids: Metabolic importance in insects 857
Freezing, ultra-rapid: In studies of ultrastructure of intima of WHHL and cholesterol-fed rabbits 967

G

Gallbladder mucin: Binding of cholesterol and PC in vesicles in model bile 491
Gallstone patients: 7α-Hydroxylation of cholesterol in liver microsomes from 1477
Gangliosides
Anabolic sialosylation in rat brain cortical slices 1259
Derivatized, separation of molecular species by HPLC 616
From HL-60 leukemia cells 181
Gaussian summation analysis: Of gradient gels, measurement of HDL subfraction cholesterol 1085
GDNT: *see* **Glycerol dialkyl nonitol tetraether**
Gel scanning: Quantitation of apoB-48 and apoB-100 by 1639
Gemfibrozil: Effect of on peroxisome proliferation and morphology, in rat liver 1859
Gene: ApoA-I, expression of, effect of dietary fat 1397
Gene expression
Macrophage apoE, regulation by cholesterol 1055
Of apoA-I, A-II, and E in rat liver and intestine 1137
Of HepG2 cell apoB, regulation of 1065
Genetic analysis: Of total cholesterol and triglycerides in a pedigree of St. Thomas rabbits 387
Genetic studies: Of apolipoproteins in Nigerian blacks 1349
Glucose
Incorporation in the adipocyte, stimulation by palmitic acid 1299
In diabetic rats, effect of insulin or antioxidant treatment 1827
Glucosylsterols
Identification by NMR and mass spectrometry 1633
In extracts of *Euryale ferox* 1633
Glucuronidation: In bile acid metabolism 1835
Glucuronides: Bile alcohol, urinary excretion in primary biliary cirrhosis 1673
3-O-Glucuronides: Bile acid, biliary secretion of 1835
Glutathione: Effects of on α-tocopherol-dependent inhibition of nuclear lipid peroxidation 959
Glycerol dialkyl nonitol tetraether: From *Sulfolobus acidocaldarius* 944
Glycerolipid molecular species: Retinal, quantitative analysis 454
Glycerophospholipids
Choline and ethanolamine, effect of a fish oil diet on molecular species of 77
Direct derivatization using heptafluorobutyric anhydride 929
Glycosphingolipids
Derivatized, separation of molecular species by HPLC 616
Neutral, of placental tissue, fractionation of 121
NMR spectroscopy of 121
Glycoursodeoxycholic acid: Synthesis of 771

H

HDL: *see* **High density lipoprotein**
Hemolymph: VHDL of *Triatoma infestans,* purification and properties 857
Hep3B cells: Lipoproteins from 817
Hepatic cholesterol and lipoproteins: Report of a Conference 1653
Hepatic lipase
mRNA tissue expression, developmental regulation, and evolution 423
Postheparin plasma, determinant of hypo- and hyperalphalipoproteinemia 1117
Relationship to EFA deficiency in cystic fibrosis 1197
Hepatic lipogenesis: In rats, effect of TNF 579
Hepatic metabolism: In vivo, of calf lipoproteins 1499
Hepatic triglyceride lipase: Changes following estrogen administration in postmenopausal women 1895

Hepatobiliary transport: Of bile acid glucuronides 1835
Hepatocytes
Cultured rat, stimulation of bile acid synthesis by uptake of LDL 1933
Isolated, formation of crystalline tripalmitin spicules in 1375
Plasma membrane, mechanisms for binding of fatty acids to 1719
Rat, after gemfibrozil treatment, electron microscopy of 1859
Regulation of apoE synthesis and apoE mRNA 663
Hepatoma cells: Lipoproteins from, isolation and characterization 817
HepG2 cells
Apolipoprotein mRNAs 1365
Characterization of apoA-I-containing lipoprotein subpopulations secreted by 1429
Expression of apoB gene in 1065
LCAT-induced transformation of lipoproteins of 1579
Heptafluorobutyric anhydride: Use of in direct derivatization of glycerophospholipids 929
Hereditary effects: On apo[a] isoforms and Lp[a] in baboons 549
12-HETE: *see* **12-Hydroxyeicosatetraenoic acid**
High density lipoprotein
CETP-mediated transfer of cholesteryl esters and ethers 1405
Cholesterol, influence of LPL and HL on 1117
Cholesterol, uptake by rat adrenals 1799
Effect of on cholesterol efflux from cholesterol-loaded macrophages 809
In families of baboons fed a high cholesterol, high saturated fat diet, metabolism of 1147
In vitro incorporation of radiolabeled cholesteryl ester into 1663
Major apoA-IV-containing fraction in normal human serum 1525
Metabolism of in the preruminant calf 1499
Nascent rat hepatic, triglyceride-rich, metabolism of 989
Nascent, subfractions from rat liver perfusates 979
Nitrosylated, recognition by rat liver scavenger receptor 511
Rabbit, changes during acute phase response 39
Relationship to tissue-specific expression of the apoA-I gene 1397
Stimulation of sterol translocation by, in cholesterol-loaded macrophages 65
Subclass of, containing an inhibitor of lipid transfer 149
Subfractions, measurement of cholesterol in by gradient density analysis 1085
Subpopulations, role of LCAT and apoB in transformation of 499
Transfer of cholesteryl esters into 1491
High density lipoprotein conversion factor: Interaction with recombinant discoidal complexes 335
HL: *see* **Hepatic lipase**
HMG-CoA: *see* **3-Hydroxy-3-methylglutaryl-CoA**
Hormone-sensitive lipase: Of bovine adipose tissue 997
Hormones: Regulation of apoE synthesis and apoE mRNA by 663
HPLC: *see* **Chromatography, high performance liquid**
HPTLC: *see* **Chromatography, high performance thin-layer**
Hydrophobicity index: Of bile salts 719
3-Hydroxybutyrate
In human plasma, enzymatic determination of 1811
In human plasma, GLC–MS assay of 1811
3β-Hydroxy-5-en-bile acids: Preferential urinary excretion in liver disease 1233
25-Hydroxycholesterol
Formation of pregnenolone from, in mouse L929 fibroblasts 899
Metabolism in mammalian cell cultures 899
12(S)-Hydroxyeicosatetraenoic acid: Formation from arachidonic acid in platelets in vitro 1925
12-S-Hydroxy-5,8,10,14-eicosatetraenoic acid: Formation of 8-hydroxyhexadecatrienoic acid from, by renal tubular epithelial cells 731
Hydroxyetianic acid: Biliary secretion of 1835
8-Hydroxyhexadecatrienoic acid: Formation of from 12-HETE, by renal tubular epithelial cells 731
3-Hydroxyisobutyrate: Contribution to measurement of 3-OHB in human plasma 1811
7α-Hydroxylase: In the hamster, specificity and effect of phenobarbital on 711
3-Hydroxy-3-methylglutaryl coenzyme A reductase
Activity in cultured cells, effect of vitamin D_3 derivatives 379
Activity, in cultured cells, effect of 25-hydroxycholesterol on 899
Activity, in mononuclear leukocytes, effect of lovastatin treatment 1943
Catalytic site of 97
Effect of 5β-cholest-8-ene-3β,15α-diol on, in CHO-K1 cells 919
Effect of fibric acid derivatives on activity of 953
Hepatic activity in rats, correlation with bile salt hydrophobicity index 1161
Hepatic, regulation in ethinyl estradiol-treated rats 1763
Tissue-selective effects of inhibitors of 1411
Hydroxylation: Of lithocholic acid in rat liver microsomes 907
7α-Hydroxy-3-oxo-4-cholestenoic acid
In subjects with stimulated cholesterol 7α-hydroxylase activity 1883
Plasma levels in liver cirrhosis 1877
Hyocholic acid: Synthesis of stereoisomers 1267
Hyperalphalipoproteinemia: Role of postheparin plasma LPL and HL 1117
Hypercholesterolemia
Diet-induced, cholesterol transfer and metabolism in 1211
In the developing chick 9
Induced by dietary cholesterol, resistance to in a colony of rabbits 263
Hyperlipidemia: In a pedigree of St. Thomas rabbits 387
Hyperlipidemia, familial combined: Relationship between LDL density and kinetic heterogeneity 1307
Hypertriglyceridemia
ApoE-poor subfractions in VLDL 1691
Reduction of LDL cholesterol in 347
Hypoalphalipoproteinemia: Role of postheparin plasma LPL and HL 1117
Hypobetalipoproteinemia, compound heterozygous: Truncated forms of apoB in a kindred 1773
Hypolipidemic drugs
Effect of on metabolism of cholesterol in rat liver microsomes 953
Sulfur-substituted fatty acids 1711

I

Ileal resection: Effect of on plasma levels of cholestenoic acids 1883
Immunoassay, enzyme-linked: For Lp[a] 651
Immunochemical localization: Of apoA-I in developing chick skeletal muscle 9

Infants: Ketonic bile acids in urine of 1847
Inhibitor protein: Of lipid transfer 149
***myo*-Inositol:** Numbering of atoms in 1112
Insulin
Effect of in production and concentration of apolipoprotein mRNA in HepG2 cells 1365
Effect on apoB mRNA in HepG2 cells 1065
Intestinal apolipoproteins: In the suckling pig 207
Intima: From aortas in WHHL and cholesterol-fed rabbits, ultrastructure of 967
Iodoacetamide: Inactivation of HMG-CoA reductase by 97
Isoforms: Of apo[a] in baboons 549

K

7-Ketocholesterol: Interaction with antiestrogen binding sites 238
Ketoconazole: Effect of on metabolism of vitamin D_3 in cultured cells 379
15-Ketosterol: Chemical synthesis, structure, and biological activity of 247
Ketonic bile acids: In urine of infants during the neonatal period 1847
Kidney: Adult rat, localization of RBP mRNA in 171
Kinetic heterogeneity: Of LDL fractions 1307
Kinetic properties: Of bile acid sulfotransferase I 529
Kinetics: Of apoB metabolism in FH 159
Kupffer cells: Rat, quantification and regulation of apoE expression 403

L

Lactating rats: Levels of cellular RBP in small intestine of 1049
Lactosylceramide: Molecular species, specificity of CMP-N-acetylneuraminate:lactosylceramide α2,3-sialyltransferase 1789
Lanosterol 14α-methyl demethylase: Mechanistic studies of 1621
LDL: *see* **Low density lipoprotein**
Lecithin:cholesterol acyltransferase
-Deficient plasma, vesicular lipoproteins in 765
Effect of action of, on molecular species of phosphatidylcholine in ABL 1907
Role in in vitro transformation of apoA-I-containing lipoprotein subfractions 499
Transformation of HepG2 cell lipoproteins by 1579
Lens
Cholesterol synthesis in 1411
Inhibition of HMG-CoA reductase in 1411
Leukemia cells: HL-60, protein kinase C and ST1 activities in 181
Linoleic acid: Effect on brain synaptosomal lipid accretion in the piglet 1173
Lipase, hormone-sensitive: Of bovine adipose tissue 997
Lipid biosynthesis: Epidermal, regulation by transepidermal water loss 323
Lipid composition
Of rat olfactory mucosa 877
Of swine LDL subclasses 199
Lipid hydrolysis: By smooth muscle foam cells 189
Lipid permeability: Of the intestinal microvillus membrane 1289
Lipid peroxidation: Nuclear, effect of glutathione on α-tocopherol-dependent inhibition of 959
Lipid peroxides
In oxidized LDL 141
In serum lipoproteins, spectrophotometric assay for 627
Lipid transfer: Inhibition by an HDL subclass 149
Lipids
Of the epidermal permeability barrier 89
Strateum corneum 89
Lipids, plasma: In the developing chick 9
Lipids, plasma membrane: Synaptic, HPTLC of 775
Lipogenesis: Effect of on liver diacylglycerols in rats 691
Lipogenic diet: Effect of on rat liver lipids 691
Lipolytic activity: Postheparin, in cystic fibrosis patients 1197
Lipophorin: Structural changes induced by adipokinetic hormone 571
Lipoprotein(s)
Abnormalities in cystic fibrosis 1197
ApoA-I-containing, secreted by HepG2 cells, characterization of 1429
Calf, in vivo hepatic metabolism of 1499
Changes following estrogen administration in postmenopausal women 1895
Cholesterol-rich, utilization by rat adrenals 1799
Concentration on the surface of rat adrenal cortical cells 1551
Derived from human hepatoma cells, isolation and characterization 817
Distribution of apoA-IV and apoE in, effect of a neutralizing Mab to CETP 1025
HepG2 cells, LCAT-induced transformation of 1579
In dietary cholesterol-resistant rabbits 263
In Nigerian blacks, effect of apoC-II polymorphism 1349
Mesenteric lymph, of the suckling pig, origin of 207
Serum, spectrophotometric assay for lipid peroxides 627
Transfer of cholesterol to, from mitrochondrial membranes and cells 1357
Transfer of cholesteryl esters between 1405
Lipoprotein [a]
ELISA for 651
Human, quantitation using monoclonal antibodies against apo[a] and apoB 1437
In baboons, hereditary and dietary effects on 549
In plasma, relationship with other lipoprotein parameters 747
In plasma, screening of using gradient gel electrophoresis 747
Lipoprotein homeostasis: Contribution of the liver to, in the preruminant calf 1499
Lipoprotein lipase
Activity in rat tissues, effect of TNF 479
Changes following estrogen administration in postmenopausal women 1895
Genes, evolution of 423
Human adipose tissue synthesis and activity, effect of cachectin/TNF 1917
mRNA, localization in selected rat tissues 1569
mRNA tissue expression, developmental regulation, and evolution 423
Postheparin plasma, determinant of hypo- and hyperalpha-lipoproteinemia 1117
Tissue activities in chickens with high or low VLDL concentrations 1243
Lipoprotein metabolism
Effect of fish oil on 785
Hepatic, regulation in ethinyl estradiol-treated rats 1763
In chickens with high and low VLDL concentrations 1243
In lean and fat chickens 1243

Lipoprotein oxidation: In diabetic rats 1827
Lipoprotein receptors: On chicken embryo fibroblasts and oocytes 1421
Lipoprotein secretion: By CaCo-2 cells 371
Lipoproteins, apoA-I-containing: Role in in vitro transformation of apoA-I-containing lipoprotein subfractions 499
Lipoproteins, apoB-containing: Affinity of apoB epitopes for 1015
Lipoproteins, nascent: Catabolism of 989
Lipoproteins, plasma
In fish, a review 467
In the developing chick 9
Lipoproteins, triglyceride-rich: Accumulation in HepG2 cells 1365
Lipoproteins, vesicular: In LCAT-deficient plasma 765
Lipoxygenase: Action on arachidonic acid in the presence of albumin 1925
Liquid chromatography, thermospray ionization: And mass spectrometry, analysis of bile acids by 1459
Lithocholic acid: Detoxification of 907
Liver diseases
Plasma cholestenoic acids in 1877
Preferential urinary excretion of 3β-hydroxy-5-en-bile acids 1233
Liver function: In cystic fibrosis 1197
Liver perfusion: Secretion of cholesteryl ester(s) and apoB in African green monkeys 1535
Locusts: In vitro study of action of adipokinetic hormone 571
Lovastatin treatment
Effects of on guinea pig LDL composition and metabolism 1591
Induction of HMG-CoA reductase activity in mononuclear leukocytes 1943
Inhibition of sterol synthesis in mononuclear leukocytes 1943
Low density lipoprotein
Accumulation in rat serosal mast cells during recovery from degranulation 1341
Acetylated, metabolism of by human endothelial cells 1561
Acetylated, receptor on THP-1 cells, induction by phorbol ester 1515
An immunochemical marker for oxidation of 885
ApoB-100, metabolic behavior in African green monkeys 357
ApoB-100, proteolysis of 109
ApoE-free, binding to LDL receptor, inhibition by an anti-apoE Mab 587
Catabolism of apoB in CTX 633
Cationized, metabolism by arterial smooth muscle cells 1219
Cholesterol, reduction in severe hypertriglyceridemia 347
Composition and metabolism, colestipol-induced changes in humans 225
Controlled oxidation of 141
Density and kinetic heterogeneity, in normolipidemia and FCH 1307
Density shift in severe hypertriglyceridemia 347
Guinea pig, effects of lovastatin on composition and metabolism of 1591
Heterogeneity in the cebus monkey 641
In vitro incorporation of radiolabeled cholesteryl ester into 1663
Interaction with human fibroblasts, effect of a high carbohydrate fat-free diet 1331
Oxidation of, hydrolysis of PC 305
Oxidation, prevention by probucol in vitro 1703
Oxidatively modified, inhibition of cholesterol esterification by 1561
Oxidatively modified, metabolism of by human endothelial cells 1561
Stimulation of bile acid synthesis in cultured rat hepatocytes 1933
Swine plasma, from Lpb2/3 heterozygotes 199
Transport in the hamster, effect of aging and dietary fat 559
Uptake, by tissues of hamsters of various ages 559
Low density lipoprotein receptors: Hepatic, in rats treated with ethinyl estradiol 1763
LPL: *see* **Lipoprotein lipase**
Lp[a]: *see* **Lipoprotein[a]**
Lung surfactant: Determination of PC and disaturated PC by HPLC 607
Lysolecithin acyltransferase: Effect of action of, on molecular species of phosphatidylcholine in ABL 1907
Lysophosphatidylserine: Quantitation in rat brain by mass spectrometry 1983

M

Mab: *see* **Monoclonal antibody**
Macrophages
Cholesterol-loaded, effect of HDL binding on sterol translocation 65
Expression of apoE gene in 1055
Mouse peritoneal, synthesis and secretion of apoE 809
Macrophages, cholesterol-rich: Decreased production of prostaglandin by 1385
Magnetic resonance spectroscopy, proton: Of plasma from patients with dyslipoproteinemia 521
Mass spectrometry
^{252}Cf plasma desorption, study of apolipoprotein structure by 1781
And thermospray ionization liquid chromatography, analysis of bile acids by 1459
FAB, method to quantitate lysophosphatidylserine in rat brain 1983
Of ketonic bile acids 1847
Quantitation of PAF in mouse urine by 1977
Mast cells: Stimulated, accumulation of LDL in 1341
MDCK cells: Metabolism of 12-HETE by 731
Membranes, mitochondrial: Transfer of cholesterol from, to lipoprotein fractions 1357
Mesenteric lymph: Suckling pig, origin of lipoproteins in 207
Metabolic heterogeneity: Of HDL, in baboons fed a high cholesterol, high saturated fat diet 1147
Methanogen, aceticlastic: *Methanothrix concilii* GP6, ether lipids of 1601
6-Methyl bile acids: Synthesis and metabolism in the hamster 1005
Mevalonolactone: Effect of on hepatic cholesterol and lipoprotein metabolism in rats 1763
Microsomes
Human liver, ACAT activity in 739
Human liver, substrate saturation of cholesterol 7α-hydroxylase 1477
Rat liver, hydroxylation of lithocholic acid in 907
Microvillar channels: Plasma membrane compartment for concentrating lipoproteins on surface of adrenal cells 1551
Microvillus membrane: Intestinal, assessment of hydrophobicity of, a rapid method 1289
Milk lipids: In normal lactating mothers 395
Mitochondrial membranes: Transfer of cholesterol from, to lipoprotein fractions 1357

Molecular species
Of aminophospholipids, analysis by HPLC 1963
Of choline and ethanolamine glycerophospholipids, effect of a fish oil diet on 77
Of derivatized glycosphingolipids, separation by HPLC 616
Of phosphatidylcholine in abetalipoproteinemia 1907
Of rat liver diacylglycerols, effect of lipogenic diet on 691
Of retinal glycerolipids, quantitative analysis 454
Mongolian gerbil: Effect of dietary cholesterol on serum apoA-I 1997
Monoacylglycerol transferase: Hepatic, associated with the chick embryo 1243
Monoclonal antibodies
Against apoB-100, use of in a candidate reference method 1445
Against apo[a] and apoB, use of in ELISA for Lp[a] 1437
Anti-apoB, in studies of structure and localization of apoB in rat liver membrane fractions 1185
Inhibition of apoB-mediated receptor activity by an anti-apoE antibody 587
Rat, to human apoB 1015
Rat, to human serum LDL 1015
To apo[a] from human Lp[a], characterization of 23
To CETP, effect of on distribution of apoA-IV and apoE among human lipoproteins 1025
Monocytes: Cell line THP-1, induction of acetyl-LDL receptor activity by phorbol ester 1515
Mononuclear leukocytes: Effect of lovastatin treatment on sterol synthesis and HMG-CoA reductase activity 1943
MS: *see* **Mass spectrometry**
Mucin, gallbladder: Binding of cholesterol and PC in vesicles in model bile 491
Muricholic acid: Synthesis of stereoisomers 1267

N

NADPH-cytochrome P-450 reductase: Microsomal, effect of digitonin on 1127
Nephelometric assay: Of apoA-I and apoB, comparison with RIAs 597
Neutrophil lipids: Rat, effect of a fish oil diet on composition of 77
***p*-Nitrophenylbutyrate:** Water-soluble substrate for bovine adipose tissue hormone-sensitive lipase 997
NMR spectroscopy: Detection of vesicular lipoproteins in LCAT-deficient plasma by 765
Nonesterified fatty acids: Plasma, one-step rapid extractive methylation 451
NPLC cells: Lipoproteins from 817
Nuclear magnetic resonance: ^{31}P, of tissue phospholipids, comparison of procedures 458
Nucleotide substitution: C→T, at apoB cDNA nucleotide 421 443

O

Octenedioic acids: In human urine, identification and possible origin of 1611
3-OHB: *see* **3-Hydroxybutyrate**
3-OHIB: *see* **3-Hydroxyisobutyrate**
Oleic acid
Effect of on production and concentration of apolipoprotein mRNA in HepG2 cells 1365
Effect on apoB mRNA in HepG2 cells 1065
Olfactory mucosa: Rat, characterization of total lipids and fatty acid compositions 877
Ontogeny: Of hepatic monoacylglycerol transferase activity in the chicken 1251
Organic ion transport: In the rat 1835
Oxazoline derivatives: Of unsaturated fatty acids, structure determination by mass spectrometry 127
Oxidation: Controlled, of LDL 141
Oxidative metabolism: Of lithocholic acid in rat liver microsomes 907
Oxidative modification
Of LDL, hydrolysis of PC during 305
Of LDL, immunochemical marker for 885
Oxygenated sterols: Chromatography of acetate derivatives of 1097
Oxygenated triterpenoids: Determination of stereo- and positional isomers of by reversed phase HPLC 287

P

PAF: *see* **Platelet activating factor**
Palmitic acid: Stimulation of glucose incorporation in adipocytes by 1299
Parenchymal cells: Role of in absorption, storage, and distribution of β-carotene in rats 1545
PC: *see* **Phosphatidylcholine**
Pedigree: Of rabbits resistant to dietary cholesterol-induced hypercholesterolemia 263
Perfused rat liver
Measurement of apoB synthesis in 841
Nascent HDL subfractions from 979
Peroxides, lipid: In serum lipoproteins, spectrophotometric assay for 627
Peroxisomes: Proliferation and morphology in rat liver, after gemfibrozil treatment 1859
Phenobarbital: Effect of on 7α-hydroxylase activity 711
Phorbol ester: Induction of acetyl-LDL receptor by, in THP-1 monocytes 1515
Phosphatidylcholine
Determination in lung surfactant by HPLC 607
Disaturated, determination in lung surfactant by HPLC 607
Hydrolysis, mediated by PAF acetylhydrolase during LDL oxidation 305
Molecular analogues of, in bovine brain 219
Molecular species in ABL 1907
Phosphatidylethanolamine
Human erythrocytes, molecular species of 1963
Molecular species of, analysis by HPLC 1963
Rat brain, molecular species of 1963
Phosphatidylinositol: Separation by two-step one-dimensional TLC 761
Phosphatidylserine: Molecular species of, analysis by HPLC 1963
Phospholipase activity: In cholesterol-rich macrophages 1385
Phospholipase D: Hydrolysis of sphingophosphocholine 611
Phospholipids
Brain synaptosomal in the piglet, fatty acid composition 1173
Fatty acid composition of red cells in cystic fibrosis 1483
Separation by two-step, one-dimensional TLC 761
Tissue, ^{31}P NMR of 458
Phospholipids, ethanolamine: In human platelets, effect of dietary fish oil on alkenylacyl class of 59
Photoaffinity labeling: Of bile salts 1281

Placental tissue: Fractionation of neutral glycosphingolipids of 121
Plasma fatty acids: Direct transesterification for diagnosis of EFA deficiency in cystic fibrosis 1483
Plasma lipids
Concentration and density distribution, effect of APR on 39
Human, effect of fish oil on metabolism of 785
In CTX 633
In cystic fibrosis 1197
In patients with dyslipoproteinemia 521
Plasma lipoproteins
Human, effect of fish oil on metabolism of 785
In cystic fibrosis 1197
In fish, a review 467
In sitosterolemia with xanthomatosis 1319
In the preruminant calf, physicochemical properties 1499
Plasma membrane
Hepatocyte, mechanism for binding of fatty acids to 1719
Microvillar channel compartment, concentration of lipoproteins in 1551
Synaptic lipids, HPTLC of 775
Translocation of intracellular cholesterol to, stimulation by HDL 65
Plasminogen
Cross-reactivity with Lp[a] 651
Reactivity with mouse monoclonal antibodies to human apo[a] 23
Platelet(s)
Binding of apoE-rich HDL particles by 831
Human, effect of dietary fish oil on ethanolamine phospholipids of 59
Platelet-activating factor
Acetylhydrolase, mediator of hydrolysis of PC during LDL oxidation 305
Analysis of 929
In a lipid extract of bovine brain 219
Quantitation in mouse urine by mass spectrometry 1977
Platelet aggregation: Agonist-induced, inhibition by apoE-rich HDL binding to platelets 831
PMRS: *see* **Proton magnetic resonance spectroscopy**
Polyanions: Induction of proteolysis of LDL apoB-100 by 109
Polymorphism: Of apoC-II in Nigerian blacks, effect on lipoprotein levels 1349
Polymorphonuclear leukocytes: Fatty acid composition of glycerophospholipids of 77
Polyunsaturated fatty acids: Tissue-specific alteration of expression of the apoA-I gene by 1397
Postmenopausal women: Effect of estrogen administration on lipoproteins, LPL, and HTGL 1895
Postprandial lipemia
Effects on plasma cholesterol metabolism 1211
Relationship to plasma ASP levels 1727
Pravastatin
A tissue-selective inhibitor of cholesterol synthesis 1411
Lack of inhibition of HMG-CoA reductase in lens 1411
Pregnant rats: Levels of cellular RBP in small intestine of 1049
Pregnenolone: Formation from 25-hydroxycholesterol in cultured cells 899
Preruminant calf: Plasma lipoproteins and apolipoproteins 1499
Primary biliary cirrhosis
Cholestenoic acids in plasma 1877
Effect of ursodeoxycholic acid treatment 1953
Serum and urinary bile acids 1953
Probucol: Concentration-dependent antioxidant activity of in vitro, in LDL 1703
Prostaglandin
Artifact in oxidized LDL 141
Decreased production by cholesterol-rich macrophages 1385
Prostaglandin E_2: Production by brain microvessel endothelium 1747
Prostaglandin I_2: Production by brain microvessel endothelium 1747
Proteases, plasma: Action on LDL apoB-100 109
Protein inhibitor: Of lipid transfer 149
Protein kinase C: In HL-60 leukemia cells, effect of inducers of cell differentiation on 181
Protein polymorphism: Of human plasma apoD 865
Proteolysis: Of LDL apoB-100 by contact activation factors 109
Proton magnetic resonance spectroscopy: Of plasma from patients with dyslipoproteinemia 521

R

Radiation inactivation: Determination of functional size of rat liver DGAT by 1759
Radioimmunoassay: Of apoA-1 and apoB, comparison with nephelometric assays 597
RBP: *see* **Retinol-binding protein**
Receptor activity: LDL, effect of lovastatin treatment on 1591
Receptor binding: ApoB-mediated, inhibition by an anti-apoE antibody 587
Receptor, scavenger: Rat liver, recognition of nitrosylated HDL by 511
Receptors
LDL in the hamster, effect of dietary cholesterol and saturated fat 559
LDL, in cultured rat hepatocytes 1933
Receptors, lipoprotein: On chicken embryo fibroblasts and oocytes 1421
Restriction site polymorphism: *Apa*LI, associated with the MB19 polymorphism in apoB 443
Retina: Glycerolipid molecular species, quantitative analysis 454
Retinol-binding protein
Cellular levels in small intestine of rats during pregnancy and lactation 1049
mRNA, localization in rat kidney and perinephric fat tissue 171
Reverse cholesterol transport
From mitochondrial membranes and cells to lipoproteins 1357
In baboons fed a high cholesterol, high saturated fat diet 1147
Review article
Effect of fish oil on plasma lipid and lipoprotein metabolism in humans 785
Plasma lipoproteins in fish 467
RIA: *see* **Radioimmunoassay**
mRNA
ApoA-I, apoC-I, and apoE, structure and expression, in the dog 1735
ApoB and apoE in rat liver cells 403
ApoB in HepG2 cells, regulation of 1065
ApoE, cholesterol-induced changes in macrophages 1055
ApoE, increase in cholesterol-loaded macrophages 809
ApoE, regulation of synthesis by diet and hormones 663
Apolipoproteins, in HepG2 cells 1365
Lipoprotein lipase, localization in selected rat tissues 1569
LPL and HL, expression in rat tissues during development 423
LPL, human adipose tissue, effect of cachectin/TNF 1917

Of apoA-I, A-II, and E, in rat liver and intestine, influence of estrogens, and food intake 1137
RBP, localization in rat kidney and perinephric fat tissue 171

S

Sarcosylsarcoursodeoxycholic acid: Formed during synthesis of sarcoursodeoxycholic acid 771
Sarcoursodeoxycholic acid: Synthesis of 771
Saturated fat-rich diet: In baboons, effect of on metabolism of large HDL 1147
Scavenger receptor: Rat liver, recognition of nitrosylated HDL by 511
Scymnol sulfate: In bile from the small skate, *Raja erinacea* 317
Selected ion monitoring: Of pentafluorobenzoyl derivatives of PAF 1977
Serosal mast cells: Stimulated, accumulation of LDL in 1341
Sialosyl transferase: Activity in rat brain cortical slices 1259
Sialosylation, anabolic: Of gangliosides in situ in rat brain cortical slices 1259
Sialyltransferase
Activity in HL-60 leukemia cells 181
Specificity for molecular species of lactosylceramide 1789
Sitosterol
Increased absorption in sitosterolemia with xanthomatosis 1319
Turnover, in sitosterolemia with xanthomatosis 1319
Sitosterolemia
With xanthomatosis, increased sitosterol absorption and decreased removal 1319
With xanthomatosis, reduced cholesterol synthesis in 1319
Size distribution: Of Lp[a] in plasma 747
Smooth muscle foam cells: Cell culture model, lipid hydrolysis in 189
Spectroscopy, ^{1}H-NMR: Detection of vesicular lipoproteins in LCAT-deficient plasma by 765
Sphingosine-1-phosphate: Enzymatic synthesis of 611
Sphingosylphosphocholine: Treatment with phospholipase D to form sphingosine-1-phosphate 611
Squalene epoxidase: Microsomal activity, inhibition by digitonin 1127
ST1: *see* **CMP-N-acetylneuraminic acid:lactosylceramide sialyltransferase**
Stable isotopes: Use of in measuring apoB synthesis in the perfused rat liver 841
Sterol synthesis
In mononuclear leukocytes, effect of lovastatin treatment 1943
Inhibitors of 247, 919, 1097
Sterols: Interaction with antiestrogen binding sites 238
Sterols, oxygenated: Chromatography of acetate derivatives of 1097
Stratum corneum: Lipids of 89
Sulfated bile alcohols: In rat bile 1889
Sulfation: Of bile acids and 3-hydroxy steroids 529
***Sulfolobus acidocaldarius*:** Purification of GDNT from 944
Sulfotransferase I, bile acid: Sulfation of bile acids and 3-hydroxy steroids 529

T

Tamoxifen: Binding to rat liver antiestrogen binding sites 238
Taurochenodeoxycholate: Monosulfate esters, effect of on bile in hamsters 673
TCDC: *see* **Taurochenodeoxycholate**
Tetraether lipids: Purification of GDNT from *Sulfolobus acidocaldarius* 944
(22R)-3α,7α,12α,22-Tetrahydroxy-5β-cholestanoic acid: In urine of a patient with Zellweger's syndrome 541
(23R)-3α,7α,12α,23-Tetrahydroxy-5β-cholestanoic acid: In urine of a patient with Zellweger's syndrome 541
Tetranitromethane: Nitrosylation of HDL by 511
Tissue distribution: Of dog mRNA for apolipoproteins A-I, C-I, and E 1735
TNF: *see* **Tumor necrosis factor**
α-Tocopherol: Inhibition of nuclear lipid peroxidation 959
Transepidermal water loss: Regulation of epidermal lipid biosynthesis by 323
Transfer protein, core lipid: Activity, in in vitro incorporation of radiolabeled cholesteryl ester into LDL and HDL 1663
Triglyceride(s)
Accumulation in CaCo-2 cells 371
And apoA-IV in human sera, correlation between 701
Hydrolysis, in a cell culture model of smooth muscle foam cells 189
Of nascent lipoproteins, catabolism of 989
Serum, in diabetic rats, effect of insulin or antioxidant treatment 1827
Uptake of EPA into, by brain microvessel endothelium 1747
Triglyceride clearance: Relationship to plasma ASP levels 1727
Triglyceride, crystalline: Formation in isolated hepatocytes 1375
Triglyceride, plasma: Genetic analysis in a pedigree of rabbits 387
Triglyceride synthesis: Development in the chick 1251
Triglyceride-rich high density lipoprotein: Rat hepatic, metabolism of 989
Triglyceride-rich lipoproteins: Accumulation in HepG2 cells 1365
3α,4β,7α-Trihydroxy-5β-cholanoic acid: In human bile 847
3,6,7-Trihydroxy-5β-cholanoic stereoisomers: Chemical synthesis from chenodeoxycholic acid 1267
Triterpenoids, oxygenated: Determination of stereo- and positional isomers of by reversed phase HPLC 287
Tumor necrosis factor
Effect of on human adipose tissue LPL mRNA levels, synthesis, and activity 1917
Effect of on lipoprotein lipase activity in rat tissues 579
Turnover: Of LDL in humans, effect of colestipol therapy 225

U

UDCA: *see* **Ursodeoxycholic acid**
Ultracentrifugation, density gradient: In studies of relationship between LDL density and kinetic heterogeneity 1307
Ultrastructure
Of intima from aortas of WHHL and cholesterol-fed rabbits 967
Of intima from aortas prepared by ultra-rapid freezing and freeze-etching 967
Unilamellar lipid vesicles: In studies of fatty acid binding to plasma membranes 1719
Unsaturated fatty acids: Oxazoline derivatives, structure determination by mass spectrometry 127
Urinary excretion
Of bile acids in liver diseases 1233
Of bile alcohol glucuronides in primary biliary cirrhosis 1673

Urine
Ketonic bile acids in 1847
Mouse, platelet activating factor in 1977
Ursodeoxycholic acid
Metabolites in serum and urine 1953
Treatment of primary biliary cirrhosis with 1953

V

Vasopressor activity: Of mixtures of PAF and related compounds from bovine brain 219
Very high density lipoprotein: From hemolymph of *Triatoma infestans,* purification and properties 857
Very low density lipoprotein
An apoE-poor subfraction of, in hypertriglyceridemic subjects 1691
ApoE- and cholesteryl ester-rich, from WHHL rabbits 1
From WHHL rabbits, characterization of 1
Hepatic, conversion to plasma LDL in African green monkeys 357
Intrahepatic assembly 1185
Metabolism in chicken with high or low VLDL concentrations 1243
Secretion, possible contribution to apoA-IV levels in fasting subjects 701
VHDL: *see* **Very high density lipoprotein**
Vitamin A
Absorption, storage, and distribution of β-carotene in rats 1545
Localization of RBP mRNA in rat kidney and perinephric fat tissue 171
Vitamin D_3 derivatives: Effect of on cholesterol synthesis and HMG-CoA reductase in cultured cells 379
VLDL: *see* **Very low density lipoprotein**

W

Watanabe heritable hyperlipidemic rabbits
Characterization of VLDL from 1
Ultrastructure of intima from aortas of 967
WHHL rabbit: *see* **Watanabe heritable hyperlipidemic rabbit**

Z

Zellweger's syndrome: Novel C-27 bile acids in urine of a patient 541
Zona fasciculata cells: Microvillar channels in 1551
